Version	Date of Issue	Details
1.0	Feb 2021	
1.1	June 2021	3.2.1 – minor editorial changes Annex A – IMO Hazzard Class/IMSBC to include IMO Hazard Class 'A'

1 Introduction[1]

The accurate knowledge of dangerous or polluting goods being carried on board ships is essential to the preparation and effectiveness of operations to tackle any incident involving dangerous goods or polluting goods at sea. Ships leaving or bound for Irish ports must submit dangerous and polluting goods information through SafeSeasIreland in accordance with *S.I. No. 573/2010 - European Communities (Vessel Traffic Monitoring and Information System) Regulations 2010[2], as amended*.

2 Responsibilities of declarants

Agents, Owners and Masters (declarants) shall ensure that the required information:

- is submitted via SafeSesIreland;
- is submitted in a timely manner;
- is accurate, and
- all personnel involved in entering information via SafeSeasIreland are appropriately trained.

3 Reporting via SafeSeasIreland

3.1 Required information to be reported

The "Hazmat" tab for pre-arrivals and departure notifications shall be completed as detailed in section 3.2 where dangerous and polluting goods (Hazmat) are carried. The information detailed in Annex A to be included as an attachment.

3.2 Reporting for ships from an EU member state

3.2.1 Pre-arrival information

- No Hazmat information is required to be submitted to SafeSeasIreland as this information is contained in the departure information from the previous port.

3.3 Reporting for ships from outside the EU

3.3.1 Pre-Arrival information

[1] This note of for guidance only and should not be considered to be a legal interpretation of the relevant legislation. It is the responsibility of all declarants to ensure they comply with the relevant reporting requirements as set out in legislation.

[2] These regulations implement DIRECTIVE 2002/59/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 June 2002 establishing a Community vessel traffic monitoring and information system and repealing Council Directive 93/75/EEC , as amended by DIRECTIVE 2009/17/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 23 April 2009 amending Directive 2002/59/EC establishing a Community vessel traffic monitoring and information system

- The operator, agent or master of a ship, irrespective of its size, carrying dangerous or polluting goods and coming from a port located outside the European Union bound for a port in the State or an anchorage located in the territorial waters shall submit Hazmat information in SafeSeasIreland—
    - at the latest upon departure from the loading port, or
    - as soon as the port of destination or the location of the anchorage is known (if this information is unavailable on departure from the loading port)

3.4 Reporting for all Ships departing Ireland

3.4.1 Departure information

- The operator, agent or master of a ship, irrespective of its size, carrying dangerous or polluting goods and leaving a port in the State shall, at the latest at the time of departure.

4 Reporting Exemptions

Ships on specific scheduled service of less than 12 hours duration may apply for a reporting exemption. Please refer to regulation 16 of *European Communities (Vessel Traffic Monitoring and Information System) Regulations 2010*.

5 Offence for non-reporting

Please refer to *European Communities (Vessel Traffic Monitoring and Information System) Regulations 2010*, Regulation 15(4) for details.

6 References

6.1 Definitions

"IMDG Code" means *The International Maritime Dangerous Goods Code*;

"IBC Code" means *The International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk Code*;

"*IMSBC Code*" means *The International Maritime Solid Bulk Cargoes Code*

"*MARPOL Convention*" means *The International Convention for the Prevention of Pollution from Ships*

"Dangerous goods" are:

- goods classified in *The International Maritime Dangerous Goods Code* (**IMDG Code**,
- dangerous liquid substances listed in Chapter 17 of *The International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk Code* (**IBC Code**),
- liquefied gases listed in Chapter 19 of *The International Code for the Construction and Equipment of Ships Carrying Liquefied Gases in Bulk* (**IGC Code**) Code,
- solids referred to in *The International Maritime Solid Bulk Cargoes Code* (**IMSBC Code**)

- Goods for the carriage of which appropriate preconditions have been laid down in accordance with paragraph 1.1.3 of the *IBC Code* or paragraph 1.1.6 of the *IGC Code*.

"*Polluting goods*" are:

- oils as defined in **Annex I to the MARPOL Convention**;
- noxious liquid substances as defined in **Annex II to the MARPOL** Convention – included in IBC reporting;
- harmful substances as defined in **Annex III to the MARPOL Convention** – included in IMDG reporting.

"Dangerous and polluting goods" are also referred to as Hazmat goods

6.1 Relevant IMO conventions

ANNEX A – Details of reporting dangerous and polluting goods

ITEM - see note 1	✓ MANDATORY REPORTING ELEMENTS					DESCRIPTION of reporting element	
	IMDG – see note 1	IGC	IBC – See note 2	IMSBC	MARPOL ANNEX I		
DG classification	✓	✓	✓	✓	✓	**ALL**	IMDG IGC IBC IMSBC MARPOL ANNEX I
Textual reference	✓	✓	✓	✓	✓	**IMDG**	Proper Shipping Name (supplemented with the technical name of the contents, as declared by the shipper, when applicable)
						IGC	This is the product name for goods under IGC Code.
						IBC	This is the product name for goods under IBC Code
						IMSBC	This is the bulk cargo shipping name for goods under IMSBC Code
						MARPOL ANNEX I	Attribute contains the information in which IMO Code(s) DG must be declared. Values: "MARPOL_ANNEX1"
IMO hazard class	✓		✓	✓	✓	**IMDG**	Hazard class - Possible values: (1) - see note 3 (2), 2.1, 2.2, 2.3, (3), (4), 4.1, 4.2, 4.3, (5), 5.1, 5.2, (6), 6.1, 6.2, (7), (8), (9)
						IBC	S P S/P
						IMSBC	'A' 'B' 'A and B'
						MARPOL	MARPOL ANNEX I This is the name of oil for goods under Annex I to the MARPOL Convention.
UN number	✓						
Quantity	✓	✓	✓	✓	✓	Positive numeric value	
Unit Of Measurement	✓	✓	✓	✓	✓	Indication of the unit of measurement in which the weight (mass) or volume is expressed. Possible values are: KGM (kilogram), TNE (Metric tonne) M3 (Cubic meter)	
Location	✓	✓	✓		✓	Location on board	
Identification No.	✓					Identification number of cargo transport unit (if no tanks). For containers, this shall be the identification code as defined in ISO 6346 (limited to goods under IMDG code)	

Table notes:

1. Includes harmful substances as defined in Annex III to the MARPOL Convention
2. Include noxious liquid substances as defined in Annex II to the MARPOL Convention
3. Information on class 1 goods is linked with the relevant compatibility group and classification code.
   IMDG: [...]Substances and articles classified in class 1 shall be assigned to the appropriate division (1.1 – 1.6) and compatibility group. Goods of class 1 are considered to be "compatible" if they can be safely stowed or transported together without significantly increasing either the probability of an accident or, for a given quantity, the magnitude of the effects of such an accident. By this criterion, goods listed in this class have been divided into a number of compatibility groups, each denoted by a letter from A to L (excluding I), N and S. These are described in 2.1.2.2 and 2.1.2.3. of the IMDG Code.
