NOTING ALSO that the transfer and introduction of invasive aquatic species through ships' biofouling threatens the conservation and sustainable use of biological diversity, and implementing practices to control and manage ships' biofouling can greatly assist in reducing the risk of the transfer of invasive aquatic species, NOTING FURTHER that this issue, being of worldwide concern, demands aglobally consistent approach to the management of biofouling, RECALLING that, at its sixty -second session, it had adopted, by resolution MEPC.207(62), the 2011 Guidelines for the control and management of ships' biofouling to minimize the transfer of invasive aquatic species (Biofouling Guidelines), developed by the Sub-Committee on Bulk Liquids and Gases, RECALLING ALSO that, at its seventy-second session, it had agreed to review the Biofouling - on Bulk Liquids and Gases, RECALLING ALSO that, at its seventy-second session, it had agreed to review the Biofouling Guidelines, with aview to amending the Guidelines, if required, HAVING CONSIDERED, at its eightieth session, the draft revised Guidelines for the control and management of ships' biofouling to minimize the transfer of invasive aquatic species , developed by the Sub-Committee on Pollution Prevention and Response, 1 ADOPTS the 2023 Guidelines for the control and management of ships' biofouling to minimize the transfer of invasive aquatic species, as set out in the annex to the present resolution; RESOLUTION MEPC.378(80) (adopted on 7 July 2023) 2023 GUIDELINES FOR THE CONTROL AND MANAGEMENT OF SHIPS' BIOFOULING TO MINIMIZE THE TRANSFER OF INVASIVE AQUATIC SPECIESMEPC 80/17/Add.1 Annex 17, page 2 I:\MEPC\80\MEPC 80-17-Add.1.docx 2 REQUESTS Member States to take urgent action in applying these Guidelines, - Annex 17, page 2 I:\MEPC\80\MEPC 80-17-Add.1.docx 2 REQUESTS Member States to take urgent action in applying these Guidelines, including the dissemination thereof to the shipping industry and other interested parties, taking these Guidelines into account when adopting measures to minimize the risk of intr oducing invasive aquatic species via biofouling, and reporting to MEPC on any experience gained in their implementation; 3 AGREES to keep these Guidelines under review in light of the experience gained; 4 REVOKES resolution MEPC.207(62).
