In addition, there are about 5,000 pleasure craft crossing this area during the summer season. Regulation applied to navigation on the Strait of Bonifacio is based on resolution A.766(18) adopted in 1993 by IMO. This text urges ships carrying hazardous materials to avoid along this seaway. It has been complemented by circulars of IMO SN/Circ.198 and 201 (26 May 1998) concerning "routeing measures other than traffic separation schemes" and "mandatory ship reporting systems" applicable to the Bouches of Bonifacio from 1 December 1998 at 00:00 a.m. France and Italy have implemented these provisions through the establishment of the rule "Bonifacio Trafic", that represents amore restrictive device; inasmuch
