the marine environment. It is recommended that ships use port reception facilities as the primary means of discharge for all garbage. 1.3 Recognizing that the Annex Vregulations continue to restrict the discharge of garbage into the sea, require garbage management for ships, and that garbage management technology continues to evolve, it is recommended that governments and the Organization continue to gather information and review these guidelines periodically. - technology continues to evolve, it is recommended that governments and the Organization continue to gather information and review these guidelines periodically. 1.4 Regulation 8 of MARPOL Annex Vprovides that Governments must ensure the provision of adequate port reception facilities for garbage from ships and should facilitate and promote their use. Section 5 provides guidelines for these facilities. 1.5 The Convention provides definitions for terms used throughout these guidelines. Section 1.6 includes relevant aspects of these definitions, followed by other definitions which are useful for these guidelines. 1.6 Definitions 1.6.1 Dishwater means the residue from the manual or automatic washing of dishes and cooking utensils which have been pre-cleaned to the extent that any food particles adhering to them would not normally interfere with the operation of automatic dishwashers. 1.6.2 Grey water means drainage from dish
