.1 ships solely engaged in voyages within waters subject to the sovereignty or jurisdiction of the State the flag of which the ship is entitled to fly. However, each Party should ensure, by the adoption of appropriate measures, that such ships act in a manner consistent with the requirements of chapter 5 of this Annex, so far as is reasonable and practicable;

.2 ships not propelled by mechanical means, and platforms including FPSOs and FSUs and drilling rigs, regardless of their propulsion; and

.3 semi-submersible vessels until further review of the application of this chapter.

Regulation 31
Goal

The goal of this chapter is to reduce greenhouse gas (GHG) emissions from international shipping as soon as possible, delivering on the reduction targets set out in the 2023 IMO Strategy on Reduction of GHG Emissions from Ships ,74 effectively promoting the energy transition of shipping and providing the world fleet with a needed incentive while contributing to a level playing field and a just and equitable transition.

Regulation 32
Functional requirements

transition of shipping and providing the world fleet with a needed incentive while contributing to a level playing field and a just and equitable transition.

Regulation 32
Functional requirements

In order to achieve the goal set out in regulation 31 of this Annex, a ship to which this chapter applies shall comply with the following functional requirements:

.1 requirements on the continuous improvement of the ship's GHG fuel intensity in accordance with regulation 35 of this Annex; and

.2 requirements on GHG emissions pricing contributions for excess emissions and on rewards for the uptake of zero or near -zero GHG emission technologies, fuels and/or energy sources (ZNZs) in accordance with regulations 36 and 39.

Regulation 33
Attained annual GHG fuel intensity (attained annual GFI)

1 After the end of calendar year 2028 and after the end of each calendar year thereafter, each ship to which this chapter applies shall calculate the attained annual GFI over a 12-month period from 1 January to 31 December for the preceding calendar year (reporting period), using

each ship to which this chapter applies shall calculate the attained annual GFI over a 12-month period from 1 January to 31 December for the preceding calendar year (reporting period), using

74 Refer to the 2023 IMO Strategy on Reduction of GHG Emissions from Ships (resolution MEPC.377(80)).

the data collected in accordance with regulations 27 and 37 of this Annex and specified in appendix XII to this Annex, taking into account the guidelines to be developed by the Organization.75

2 The attained annual GFI of a ship in a given year (denoted as ) shall be calculated as follows, taking into account the guidelines to be developed by the Organization:76

=
×=1

where

GFIattained is the attained annual GFI of a ship in a given year;

j is the fuel type;

J is the total number of fuels used during the reporting period, as reported to the IMO

=
×=1

where

GFIattained is the attained annual GFI of a ship in a given year;

j is the fuel type;

J is the total number of fuels used during the reporting period, as reported to the IMO Ship Fuel Oil Consumption Database;

EIj, expressed in gCO2eq/MJ, is the GHG intensity, expressed on a well-to-wake basis of a fuel type j, calculated taking into account the guidelines developed by the Organization;77

Energyj, expressed in MJ, refers to the energy consumption of fuel type by the ship in the reporting period; and

Energytotal expressed in MJ, refers to the total amount of energy used by the ship in the reporting period, including but not limited to fuel oil, electricity delivered from the shore power, and zero-emission energy sources, such as wind propulsion and solar power.

Regulation 34
Sustainable fuels certification schemes

1 The GHG intensity of a fuel shall be calculated using GHG emission factors and take into account all relevant metrics and indicators for each sustainability theme or aspect of a fuel as documented on the Fuel Lifecycle Label(s) (FLL).

---CHUNK---

SOURCE: MEPC.403(83).pdf
1 The GHG intensity of a fuel shall be calculated using GHG emission factors and take into account all relevant metrics and indicators for each sustainability theme or aspect of a fuel as documented on the Fuel Lifecycle Label(s) (FLL).

2 GHG emission factors and sustainability themes or aspects of a fuel as documented on the FLL shall be certified, as appropriate, by a recognized Sustainable Fuels Certification Scheme (SFCS) taking into account guidelines to be developed by the Organization.78

75 Refer to the guidelines to be developed on the calculation of the attained annual greenhouse gas fuel intensity (GFI Calculation Guidelines).
76 Refer to the guidelines to be developed on the calculation of the attained annual greenhouse gas fuel intensity (GFI Calculation Guidelines).

77 Refer to the 2024 Guidelines on life cycle GHG intensity of marine fuels (resolution MEPC.391(81)), as may be amended.

78 Refer to guidelines to be developed/amend the 2024 Guidelines on life cycle GHG intensity of marine fuels (resolution MEPC.391(81)) (LCA guidelines), as appropriate.

RESOLUTION MEPC.403(83) (adopted on 11 April 2025)

be amended.

78 Refer to guidelines to be developed/amend the 2024 Guidelines on life cycle GHG intensity of marine fuels (resolution MEPC.391(81)) (LCA guidelines), as appropriate.

RESOLUTION MEPC.403(83) (adopted on 11 April 2025)
AMENDMENTS TO THE 2022 GUIDELINES ON SURVEY AND CERTIFICATION

3 The certified information in the FLL may accompany the bunker delivery note referred to in regulation 18 of this Annex, taking into account guidelines to be developed by the Organization.79

4 An SFCS shall be recognized by the Committee taking into account the recognition process(es) and criteria specified in guidelines to be developed by the Organization. 80 The recognition of an SFCS shall be subject to renewal every five years and periodic review, taking into account guidelines to be developed by the Organization.81

5 No later than 1 March 2027, the Secretary-General of the Organization shall publish a list of recognized SFCSs, and shall update the list periodically thereafter.
