he requirements of the standard that
do not conflict with the provisions of this Code shall be applied as specified, including the requirements of
any other standard, or part of a standard, referenced within that standard as normative .
Note
: A standard provides details on how to meet the provisions of this Code and may include requirements in addition to those set out in this Code .
1.1.1.7 Tr ansport of dangerous goods used as a coolant or conditioner
Dangerous goods, that are only asphyxiant (which dilute or replace the oxygen normally in the atmosphere), when used in cargo transport units for cooling or conditioning purposes are only subject to the provisions of section 5 .5 .3 .
Note
: When carried on board as ships stores or equipment, these coolants and conditioners are not subject to the provisions of this Code .
1.1.1.8 No tification of infringements
When a competent authority has reasons to believe that the safety of the transport of dangerous goods is

1.1.1.8 No tification of infringements
When a competent authority has reasons to believe that the safety of the transport of dangerous goods is compromised as a result of serious or repeated infringements of this Code by an enterprise which has its headquarters on the territory of another competent authority, it should if necessary notify that competent authority of such infringements .
1.1.1.9 La mps containing dangerous goods
The following lamps are not subject to this Code provided that they do not contain radioactive material and do not contain mercury in quantities above those specified in special provision 366 of chapter 3 .3:
.1
la
mps that are collected directly from individuals and households when transported to a collection or recycling facility;
.2 la
mps each containing not more than 1 g of dangerous goods and packaged so that there is not more than 30 g of dangerous goods per package, provided that:
(i) th
