RESOLUTION MEPC.52(32) adopted on 6 March 1992
AMENDMENTS TO THE ANNEX OF THE PROTOCOL OF 1978 RELATING TO THE INTERNATIONAL CONVENTION

FOR THE PREVENTION OF POLLUTION FROM SHIPS, 1973 - 10 -
REGULATION 13C OF ANNEX I OF HARPOL 73 / 78
Prevention of oil pollution in the event of collision or stranding
Measures for existing tankers
(1) This regu l ation shall:
(a) apply to crude oil tankers of 20 ,000 t ons deadwei ght and above And
to product carrier s of 30,000 tons deadweight and Above, which ar e
contracted, the kee ls of which are laid. or which Are de l ivered
before the dates specified in regulation 13F(l) of this Annex; and
(b) not apply t o oil tankers comply ing with regulation 13F of this

contracted, the kee ls of which are laid. or which Are de l ivered
before the dates specified in regulation 13F(l) of this Annex; and
(b) not apply t o oil tankers comply ing with regulation 13F of this
Annex, whi ch are contracted, the keel s of whi c h are lai d, or are
de livered before the dates spe c ified in regulation 13F(I } of this
Annex; and
(e) not apply to oil tBn~ers covered by subparagraph (a) ab ove which
comply with regulation 13F(3)(a) and (b) or l3F(q) or 13F(5) of
this Annex, exce pt that the r equirement for minimum distances
between the cargo tank boundaries and th e ship side and bottom
plating need not be met in all re spects. In that event , the side
pr otection distances shall not be less than tho s e specified i n the
International Bulk Chemical Code for type 2 cargo tank location
a nd the bottom prote c tion shall compl y with re gu lation IJE(4)(b)
o f this Annex .
(2) The requirements of this regulation shall take effect as from
6 J uly 1995.
(3) (a) An oil tanker to which this regulati on applies shall be s uh je ct
to an enhanced programme of inspections during periodical,

o f this Annex .
(2) The requirements of this regulation shall take effect as from
6 J uly 1995.
(3) (a) An oil tanker to which this regulati on applies shall be s uh je ct
to an enhanced programme of inspections during periodical,
int ermediate and annual surveys, the scope and frequency of whi ch
shal l at least compl y with the guidelines dev e l oped by t he
Organization.
(b) An oil tank er over five years of age to which this regulation
applies shall have on board, availabl e t o the competent authority
of any Government of a State Party to t he present Convention, a
compl ete file of the survey rep orts. in cludin g the results of all
scantling measurement required , as well as t he statement of
str uctural work carri ed out.

(c) Th is file shall be acco mpanied by a cond it ion evaluation report,
containing conclusion s on th e structural condition of the ship and
its residual scantlings, end orsed to indicate that it ha s been
acc epted by or on behalf of the flag Administration. This file
an d co ndit ion eval uati on report shall be prepared in a s tandar d
format as con tain ed in the guide lines developed by the Organization.

acc epted by or on behalf of the flag Administration. This file
an d co ndit ion eval uati on report shall be prepared in a s tandar d
format as con tain ed in the guide lines developed by the Organization.
(4) An oil tanker not meeting the requirements of a new oil tank e r as
de fi ned in r egulation 1(2 6) of this Anne x shall comply with the requirement s
of regulation I J F of th i s Ann e~ not lat er than 25 yea rs after its date of
delivery, unle s s wing tanks or double bottom spa ces , not used for the carriage
of oil and meeting the widt h and height requirements of regulation 13E(q),
cover at lea st 30% of Lt for the fu ll dep th of th e ship on each side or at lea st 30% of the projected bott om shell area
LPAs wi thin the length Lt . where L~ and the pro jected botto m shel l area EPAs are as de fined in reg ulat io n IJE(2),
in whi ch case compl i ance with regulation l3F is required
not later than 30 year s after its date of delivery.

(5) An oil tanker meet ing th e requirements of a new oil tanker as defined
in r egu lation 1(26) o C this Annex shall comply with the requirements of
re gul ation l3F of thi s Annex not later than 30 years after its date of
deliv ery .
(6) Any new bal la st and load conditions resulting fr om the application
of paragraph (~) of this regulation shal l be subject to approval of the
Adminis tratio n which shall have regard, in parti cular, to longitudinal and
lo ca l str ength, intact st abilit y and, if applicable, damage stability.
(7) Other s tructural or operational arrangements such as hydrostatically
balanced loadin g may be accepte d as alternatives t o the requirements
pre scri bed i n paragraph (4), provided that such alternatives ensure at least
the same level of protection against oil pollution in the event of collision
or s trandin g a nd are approved by the Administration based on guide l ines

dev el oped by the Organi zation.
Regula tion 24(4)
Limitation of size and arrangement of car go tanks
The existing text of paragraph (4) is repla ced by the following:
"(4) The len gth o f each ca rgo tank shall not exceed 10 me t res or one of the
follow ing valu es, whichever is th e greater:
(a) Where no lon gitudi nal bulkhead is provided inside the ca r go tanks:
bi (0 .5 S- + 0.1) L
but not to exceed 0.2 L
(b) Where a centreline longitudinal bul khead is provided inside the
cargo tank s ~
(0 .25 bi + 0.15) L
B
(c) Where two or more longitudinal bulkheads are provided inside the
cargo tan ks;
(i) for wing cargo t anks;
0.2 L
(ii) for centre car go tanks:
(1) if bi i s eq ual to or greater than one fifth;
8
0.2 L
