MEPC 32/20
DEVELOPMENT OF THE CAPACITY OF SHIP SCRAPPING FOR THE SMOOTH
IMPLEMENTATION OF THE AMENDMENTS TO ANNEX I OF MARPOL 73/78
THE MARINE ENVIRONMENT PROTECTION COMMITTEE,
RECALLING Article 38(c) of the Convention on the International Maritime
Organization concerning the functions of the Committee,
NOTING Assembly resolution A.675(16) on prevention of marine pollution,
HAVING adopted the amendments to Annex I of MARPOL 73/78 in pursuance
of Assembly resolution A.675(16) which established requirements under
regulations l3F and 13G for the prevention of oil pollution in the case of
collisions or strandings applicable to new and existing ships,
BELIEVING that there will be an increased need for scrapping facilities
as a result of the requirements contained in the above regulations,
CONSIDERING that improved techniques and efficiency in scrapping methods
could considerably enhance the ability of the scrapping industry and meet the

as a result of the requirements contained in the above regulations,
CONSIDERING that improved techniques and efficiency in scrapping methods

could considerably enhance the ability of the scrapping industry and meet the necessary demand.
TAKING INTO ACCOUNT that Member States, particularly developing countries, whilst desirous either to improve existing scrapping facilities or to undertake the establishment of new ones, may require technical or other assistance for the above purposes,
RECOMMENDS that Member Governments, especially the Governments of States with shipbuilding and shipping interests:
(a) take initiatives, in co-operation with the Shipbuilding and shipping industries, to develop ship scrapping facilities at world-wide level;
(b) endeavour to promote research and development programmes, to improve efficient scrapping techniques and to undertake, in co-operation with the shipbuilding and shipping industries, the establishment of adequate ship scrapping facilities as soon as practicable; and
(c) provide technical assistance and transfer of technology to developing countries in their efforts to develop ship scrapping facilities,

adequate ship scrapping facilities as soon as practicable; and
(c) provide technical assistance and transfer of technology to developing countries in their efforts to develop ship scrapping facilities,
FURTHER RECOMMENDS the Secretary-General to consider any further action which may be taken to assist Member Governments and particularly developing countries in developing such ship scrapping facilities.

GUIDELINES FOR THE DEVELOPMENT OF SHIPBOARD OIL POLLUTION EMERGENCY PLANSANNEX 4
RESOLUTION MEPC.54(32)
adopted on 6 March 1992
MEPC 32/20
GUIDELINES FOR THE DEVELOPMENT OF SHIPBOARD OIL POLLUTION EMERGENCY PLANS
THE MARINE ENVIRONMENT PROTECTION COMMITTEE,
RECALLING Article 38(a) of the Convention on the International Maritime Organization concerning the function of the Committee,
NOTING regulation 26 of Annex I of MAR POL 73/78 which requires ships to carry a shipboard oil pollution emergency plan in accordance with the Guidelines developed by the Organization,
RECOGNIZING the urgent need for developing such Guidelines in order to

ensure uniform application of regulation 26,
HAVING CONSIDERED at its thirty - second session proposals for the Guidelines submitted by Governments,
1. ADOPTS the Guidelines for the development of the shipboard oil spill emergency plan, the text of which is set out at the annex to the present resolution;
2. URGES Governments to take necessary steps to ensure that the shipboard oil spill emergency plans are developed in accordance with these Guidelines
