SHIPBOARD OIL POLLUTION EMERGENCY PLAN - SUMMARY fLOWCHART
This flow diagram is an outline of the course of action that shipboard personnel should follow in responding to an oil pollution emergency based on the guidelines published by the Organization. This diagram is not exhaustive and should not be used as a sole reference in response. Consideration should be given for inclusion of specific references to the Plan. The steps are designed to assist ship personnel in actions to stop or minimize the discharge of oil and mitigate its effects. These steps fall into two main categories - reporting and action.
ASSESSMENT Of THE NATURE Of INCIDENT
1
ACTIONS REQUIRED
'" Alert crew members
'" Identify spill source
'" SDi11 assessment

ACTIONS REQUIRED
'" Alert crew members
'" Identify spill source
'" SDi11 assessment
.-_____ _____ _____ ~I -. r--~I ----------_,
RE~ORTING
Bv Master and/or desianahd crew member

WHEN TO REPORT
All probable and actual spills
HOW TO REPORI
''' By quickest means to coastal radio
station
''' Designated ship movement reporting
station or
''' Rescue Co-ordination Centre (at sea)
''' By quickest available means to
local authorities
WHO TO CONTACT
* Nearest coastal State
* Harbour and terminal operators
(in port)
* Shipowner's manager; P & I insurer
" Head Charterer; cargo owner
" Refer to contact lists
WHAT TO REPORT
" Initial report (Res.648(16))
" follow-up reports
''' Characteristics of oil spilled
* Cargo/ballast/bunker dispositions
* Weather and sea conditions
" Slick movement
" Assistance required
- Salvage
- Lightening capacity
- Mechanical equipment
- External strike team
- Chemical dispersant/degreasant
I ...
W/6725D/EWP
ACTION TO CONTROL DISCHARGE
Measures to minimize the escape of oil and threat
to the marine environment

ACTION TO CONTROL DISCHARGE
Measures to minimize the escape of oil and threat
to the marine environment
NAVIGATIONAL MEASURES
* Alter course/position
and/or speed
''' Change of list and/or
trim

" Anchoring
"' Setting aground
"' Initiate towage
" Assess safe haven requirements
"' Weather/tide/swell forecasting
" Slick monitoring
"' Record of events and communications taken
SEAMANSHIP MEASURES
"' Safety assessment and precaution
"' Advice on priority countermeasures/ preventive measures
" Damage stability and stress considerations
" Ba11asting/deba11asting
"' Internal cargo transfer operations
"' Emergency ship-to-ship transfers of cargo
