DANGEROUS CHEMICALS IN BULK (IBC CODE)- 34 -
The existing text of chapter 18 is replaced by the following;
CHAPTER 18 - LIST OF CHEMICALS TO WHrCH THE CODE DOES NOT APPLY
The following are chemicals which have been reviewed for thei r safety and
pollution hazards and determined not to present hazards to such an extent as
to warrant appli cat ion of the Code. This list may be used as a guide in
consideri ng bulk carriage of chemical! whose hazards have not yet been

evaluated.
2 Al thou gh the chemicals listed in this chapter fall outside the scope of

to warrant appli cat ion of the Code. This list may be used as a guide in consideri ng bulk carriage of chemical! whose hazards have not yet been evaluated.
2 Al thou gh the chemicals listed in this chapter fall outside the scope of the Code, the attention of Administrations is drawn to the fact that some safe t y precautions may be needed for their ssfe transportation. Accordingly, Administrations shou l d prescribe appropriate safety requirements.
3 Some chemicals are identified &9 falling into polluti on category D and, therefore, as being subject to certain operational requirem en ts of Annex II of HARPOL 73/78.
1; Liquid mixtures which are provisionally assessed under regulation)(4) of Annex II of MARPOL 73/78 as fallin g into polluti on category D, and which do not pres ent safety hazards, may be carri ed uncler the entry for noxious liquids not otherwise specified in this chapter. Similarly, those mixtures provisionally assessed as fal lin g o ut si de pollution cate go ry A, B. C or D, and which do not present safety hazards, may be carried under the entry for non - noxious liquids not otherwise specified in this chapter.

EXPLANATORY NOTES
In some cases, the product names may not be identical with the names given in previous issues of the IRC Code or the BCH Code (for explanation see index of chemicals).
The number relatin g to each product shown in the rec ommendations proposed by the Unit ed Natio ns Committee of Experts on the Transport of Dangerous Goods.
UN numbers, where available, are given for information only.
The letter D mea ns the pollution catego r y assigned to each product under Annex II of MARPOL 73/7 8. "tll" means the product was evaluated and found to fall outside the categories A, S, C or D.
Pol lu tion category i n brackets indicates that t he produ ct is pr ov isionall y categorized and th at further data are necessary to complete the evaluation of their pollution

hazard s . Until the hazard evaluation is completed, the
