designated by the Competent Authority(ies) in accordance with regulation 16.2 and regulation 16.3 of the Annex to the Convention to undertake relevant tasks on behalf of the Competent Authority(ies).

2.2 "Determination" means the process by which the Competent Authority(ies) decides whether to issue, amend, suspend, withdraw or renew a DASR.

3 IDENTIFICATION OF COMPETENT AUTHORITY(IES) RESPONSIBLE FOR AUTHORIZATION

According to the Convention, the Party shall designate one or more Competent Authorities as responsible for authorizing Ship Recycling Facilities within its jurisdiction. The Competent Authority(ies) should identify a single contact point to act as central communicating partner between the Competent Authority(ies), Administrations and Ship Recycling Facilities. The Competent Authority(ies) may entrust the authorization of Ship Recycling Facilities to organizations recognized by it (regulation 16.2). The Party should determine the extent to which it delegates the authorization of the Ship Recycling Facility to organizations recognized by the Competent Authority(ies), and notify the Organization of the specific responsibilities

which it delegates the authorization of the Ship Recycling Facility to organizations recognized by the Competent Authority(ies), and notify the Organization of the specific responsibilities and conditions of the authority delegated to such organizations , for circulation to Parties (regulation 16.3). The extent to which authority is delegated to the organization recognized by the Competent Authority(ies) therefore varies according to each Party's decision. In every case, the Competent Authority retains full responsibility for the authorization (regulation 16.3).

Hereafter in these guidelines, the term "Competent Authority(ies)" should be interpreted as "Competent Authority(ies)" or "organization recognized by the Competent Authority(ies)", depending upon the extent to which authority is delegated to such organizations in each Party.

Organizations recognized by the Competent Authority(ies) should work in harmony with the

depending upon the extent to which authority is delegated to such organizations in each Party.

Organizations recognized by the Competent Authority(ies) should work in harmony with the Competent Authority(ies) while undertaking the responsibilities that it has entrusted to them.

The Competent Authority(ies) should ensure that the organization recognized by it has the appropriate qualifications and expertise to conduct the tasks delegated to it, taking into account guidance to be developed by the Organization.

Where the organization recognized by the Competent Authority(ies) is delegated to authorize Ship Recycling Facilities, a system for tr acking the flow of information between the organization and the Competent Authority(ies) should be established.

The Competent Authority(ies) should establish systems for evaluating, controlling and auditing the organization recognized by it.

4 APPLICATION FOR AUTHORIZATION

4.1 General

The Ship Recycling Facility should submit an application for authorization to conduct ship recycling to the Competent Authority(ies). The formal application should be accompanied by

4 APPLICATION FOR AUTHORIZATION

4.1 General

The Ship Recycling Facility should submit an application for authorization to conduct ship recycling to the Competent Authority(ies). The formal application should be accompanied by a completed Ship Recycling Facility Plan (SRFP). The Ship Recycling Facility and Competent Authority(ies) may hold preliminary discussions before the formal application is submitted.

The Competent Authority(ies) should be aware of any requirements and obligations outside the scope of the Convention that have been established under regional and/or national law and regulations and are applicable to Ship Recycling Facilities operating under its jurisdiction.

Nothing in the Convention or these guidelines precludes a Party from supplementing the requirements of the Convention with technical standards, codes of practice and/or guidelines that might take account of technological developments, advanced practice, norms and standards, in order to further reduce risks to occupational health and safety and to the environment and any other adverse effects related to ship recycling, or from using such

standards, in order to further reduce risks to occupational health and safety and to the environment and any other adverse effects related to ship recycling, or from using such supplementary requirements during the process of authorizing a Ship Recycling Facility.

The Ship Recycling Facility should submit a formal application, ensuring that it is complete. The onus is on the Ship Recycling Facility to assess the effects of its operations and to demonstrate how ship recycling operations should be managed so as to meet the requirements of the Convention and of relevant national and/or regional legislation.

The Competent Authority(ies) may ask for additional documentation and/or return the application if it is not complete. The Ship Recycling Facility may draw upon or attach other sources of information in its application, and indeed is encouraged to make use of existing information where appropriate.

RESOLUTION MEPC.211(63)
Adopted on 2 March 2012
2012 GUIDELINES FOR THE AUTHORIZATION OF SHIP RECYCLING FACILITIESMEPC 63/23
Annex 5, page 5

I:\MEPC\63\23.doc
5 NECESSARY DOCUMENTATION FOR ISSUING THE DOCUMENT OF
AUTHORIZATION TO CONDUCT SHIP RECYCLING (DASR)

5.1 General

The SRFP, described in the Guidelines for Safe and Environmentally Sound Ship Recycling ("Facility Guidelines") and as required by regul ation 18, shall be used as the main document in issuing the DASR.

Any other documentation and/or certification required under applicable international or national legislation, including those related to ship recycling activity, should be submitted with the application.

The Competent Authority(ies) should ensure that the Ship Recycling Facility has a management system in place and described in its documentation, together with the appropriate procedures and techniques, aimed at protecting human health and the environment without posing any unacceptable risks. The Competent Authority(ies) should check that the SRFP includes the policy, plans, systems and other factors set out in regulation 18 of the annex to the Convention.

environment without posing any unacceptable risks. The Competent Authority(ies) should check that the SRFP includes the policy, plans, systems and other factors set out in

regulation 18 of the annex to the Convention.

5.2 Management of Hazardous Materials

The Competent Authority(ies) should check that the Ship Recycling Facility has established, implemented and maintained procedures for environmentally sound management of Hazardous Materials and wastes.

The Competent Authority(ies) should check that the Ship Recycling Facility has procedures in place to ensure that all Hazardous Materials detailed in the Inventory of Hazardous Materials are, to the maximum extent possible prior to cutting, identified, labelled, packaged and removed by properly trained and equipped workers, then stored and transported to waste management facilities by licensed vehicles.

The Competent Authority(ies) should check that the Ship Recycling Facility has established procedures to send all Hazardous Materials and wastes to authorized waste management and disposal sites before issuing a DASR. Documentation demonstrating these sites'
