AMENDMENTS TO MARPOL ANNEX VI AND THE NOx TECHNICAL CODE 2008
Amendments to MARPOL Annex VI
1 New paragraph 1 bis is added to regulation 17:
1 bis Small Island Developing States may satisfy the requirements in paragraph 1 of this regulation through regional arrangements when, because of those States' unique circumstances, such arrangements are the only practical means to satisfy these requirements . Parties participating in a regional arrangement shall develop a Regional Reception Facilities Plan, taking into account the guidelines developed by the Organization.
The Government of each Party participating in the arrangement shall consult with the Organization for circulation to the Parties of the present Convention:

the Organization.
The Government of each Party participating in the arrangement shall consult with the Organization for circulation to the Parties of the present Convention:
.1 how the Regional Reception Facilities Plan takes into account the Guidelines ;
.2 particulars of the identified Regional Ships Waste Reception Centres; and
.3 particulars of those ports with only limited facilities .
Amendments to the NOx Technical Code 2008
2 Existing paragraph 2.2.4 is replaced by the follOWing:
"2 .2.4 Engines not pre-certified on a test-bed
.1 There are engines which, due to their size, construction and delivery schedule , cannot be pre-certified on a test-bed. In such cases, the engine manufacturer , shipowner or shipbuilder shall make application to the Administration requesting an onboard test (see 2.1.2.2). The applicant must demonstrate to the Administration that the onboard test fully meets all of the requirements of a test-bed procedure as specified in chapter 5 of this Code. In no case shall an allowance be granted for possible deviations of measurements if an initial survey is carried out on board a ship without any valid pre-certification test. For engines

this Code. In no case shall an allowance be granted for possible deviations of measurements if an initial survey is carried out on board a ship without any valid pre-certification test. For engines undergoing an onboard certification test, in order to be issued with an EIAPP Certificate , the same procedures apply as if the engine had been pre-certified on a test-bed, subject to the limitations given in paragraph 2.2.4.2 .
. 2 This pre-certification survey procedure may be accepted for an Individual Engine or for an Engine Group represented by the Parent Engine only, but it shall not be accepted for an Engine Family certification."
RESOLUTION MEPC.217(63)
Adopted on 2 March 2012
AMENDMENTS TO THE ANNEX OF THE PROTOCOL OF 1997 TO AMEND THE INTERNATIONAL CONVENTION FOR THE PREVENTION

OF POLLUTION FROM SHIPS, 1973, AS MODIFIED BY THE PROTOCOL OF 1978 RELATING THERETO- 4 -
3 Paragraph 2.2.5.1 is rep/aced by the following:
".1 Where a NOx-reducing device is to be included within the EIAPP certification, it must be recognized as a component of the engine, and its presence shall be recorded in the engine's Technical File. The engine shall

".1 Where a NOx-reducing device is to be included within the EIAPP certification, it must be recognized as a component of the engine, and its presence shall be recorded in the engine's Technical File. The engine shall be tested with the NOx-reducing device fitted unless, due to technical and practical reasons, the combined testing is not appropriate and the procedures specified in paragraph 2.2.4.1 cannot be applied, subject to approval by the Administration. In the latter case, the applicable test procedure shall be performed and the combined enginefNOx-reducing device shall be approved and pre-certified by the Administration taking into account guidelines developed by the Organization. However, this pre-certification is subject to the limitations given in paragraph 2.2.4.2."

RESOLUTION MEPC.218(63)

Adopted on 2 March 2012

DEVELOPMENT OF TECHNICAL ONBOARD EQUIPMENT IN RELATION
TO THE DESIGNATION OF THE BALTIC SEA AS A SPECIAL AREA
UNDER MARPOL ANNEX IV

THE MARINE ENVIRONMENT PROTECTION COMMITTEE,

RECALLING Article 38(a) of the Convention on the International Maritime Organization concerning the functions of the Marine Environment Protection Committee conferred upon it by the international conventions for the prevention and control of marine pollution,

RECALLING ALSO the amendments to MARPOL Annex IV adopted by resolution MEPC.200(62), which are expected to enter into force on 1 January 2013, prohibiting the discharge of sewage from passenger ships within a special area unless, in accordance with regulation 11.3 of MARPOL Annex IV, the passenger ship has in operation an approved sewage treatment plant which shall be type approved by the Administration, taking into

regulation 11.3 of MARPOL Annex IV, the passenger ship has in operation an approved sewage treatment plant which shall be type approved by the Administration, taking into account the standards and test methods developed by the Organization,

RECALLING FURTHER the work of the Sub-Committee on Ship Design and Equipment at its fifty-sixth session on the development of the revised guidelines on implementation of effluent standards and performance tests for sewage treatment plants,

BEING CONSCIOUS of the importance of the development and availability of adequate and cost-effective technical means so as to make it possible for the shipping industry to comply with the discharge standards under MARPOL Annex IV,

HAVING CONSIDERED the amendments to MARPOL Annex IV,

1. CALLS for the development, without delay, of proven, adequate and cost-effective technical onboard equipment to make it possible to meet the discharge standards under regulation 11.3 of MARPOL Annex IV; and

2. UNDERTAKES to keep under review the development of the revised guidelines on implementation of effluent standards and performance tests for sewage treatment plants.
