urged to call the United States Coast Guard 14th District. Vessels unable to report in through INMARSAT-C should report to nwhi.notification@noaa.gov.

4 Information to be provided to ship and procedures to be followed

4.1 The CORAL SHIPREP shore-based Authority will provide critical alerts and information to shipping about specific and urge nt situations and other informa tion that may affect safety of navigation within the IMO-adopted Areas To Be Avoided and “The Papahnaumokukea Marine National Monument” Particularly Sensitive Sea Area, as well as remind ships about the existence of the IMO-adopted Areas To Be Avoided and necessity of navigating with extreme caution through the Particularly Sensitive Sea Area.3

4.2 Navigational warnings and emergency broad casts will be issued as NAVTEX messages or specifically directed at GMDSS equipped vessels using INMARSAT-C.

5 Radio Communication required for the syst em and frequencies on which reports should be transmitted

5.1 This system will be based on INMARSAT-C an d an e-mail and ships equipped with such capabilities should report through INMARSAT-C.

5 Radio Communication required for the syst em and frequencies on which reports should be transmitted

5.1 This system will be based on INMARSAT-C an d an e-mail and ships equipped with such capabilities should report through INMARSAT-C.

5.2 In the event of a developing emergency, a ship is urged to call the United States Coast Guard 14th District at 001-808-541-2500 to request a response and assistance.

5.3 For vessels unable to communicate through INMARSAT-C, reports should be made prior to, during, or after transiting through the reporting area to nwhi.notification@noaa.gov.

5.4 Commerci ally sensitive information will be kept confidential and should be transmitted prior to entry into the reporting system . Such information may be sent to nwhi.notification@noaa.gov.

5.5 The language used for reports to the sy stem should be English, employing the IMO Standard Marine Communications Phrases, where necessary.

5.6 Communications associated with CORAL SH IPREP are, in accordance with SOLAS regulation V/11, free of charge to affected vessels.

6 Relevant rules and regulations in force in the area of the system

6.1 International actions

5.6 Communications associated with CORAL SH IPREP are, in accordance with SOLAS regulation V/11, free of charge to affected vessels.

6 Relevant rules and regulations in force in the area of the system

6.1 International actions

6.1.1 The United States has taken appropriate actio n to implement the international conventions to which it is party.

6.1.2 In recognition of the fragile environment in th is area and potential hazards to navigation, the IMO has adopted several Areas To Be Avoided to protect the Northwestern Hawaiian Islands and has designated the area as a Particularly Se nsitive Sea Areas where mariners should navigate with extreme caution.3

3 Pending the final decision of MEPC 57 on the designation of this PSSA.

RESOLUTION MSC.248(83)
(adopted on 8 October 2007)
ADOPTION OF A NEW SHIP REPORTING SYSTEM

6.1.3 The United States applies its laws in accord ance with international law, which includes navigational rights under customary internatio nal law as reflected in the United Nations Convention on the Law of the Sea. No restrictions shall apply to or be enforced against foreign flagged vessels unless in accordance with such law.

6.2 Domestic Actions

6.2.1 The United States has taken c onsiderable action to ensure ma ritime safety and to protect the fragile environment and cultural resources a nd areas of cultural impor tance significant to Native Hawaiians in the NWHI. This area has been the subject of a variety of protective

measures, including designation of this area as the Northwestern Hawaiian Islands Marine National Monument (subsequently renamed the Papah naumokukea Marine National Monument) in recognition of its fr agility and to protect the many species of coral, fish, birds, marine mammals, and other flora and fauna, as we ll as to protect historical and archaeological

Monument) in recognition of its fr agility and to protect the many species of coral, fish, birds, marine mammals, and other flora and fauna, as we ll as to protect historical and archaeological heritage resources, including cu ltural resources and areas of significant importance to Native Hawaiians.

6.2.2 Regulations in this area, inter alia, prohibit taking, possessing, injuring, or disturbing any resource; altering the seabed; anchoring or dese rting a vessel; and possessing fishing gear unless stowed. All of these activitie s may be allowed by permit; however, permits cannot be issued for such things as releasing an introduced species. Activities such as discharging or depositing any material into the Monument, or discharging or depositing any material outside the Monument that subsequently injures Monument resources, except discharges incidental to vessel use, such as approved marine sanitation devi ce effluent, cooling water, and engine exhaust are also prohibited. The United States st rictly regulates entry into th e Monument and, for those vessels subject to United States jurisd iction, requires the mandatory use of vessel monitoring systems on

prohibited. The United States st rictly regulates entry into th e Monument and, for those vessels subject to United States jurisd iction, requires the mandatory use of vessel monitoring systems on those vessels that may be allowed into the Monument for specific purposes.

7 Shore-based facilities to support operation of the system

7.1 The shore-based Authority is the United St ates Coast Guard’s Communications Area Master Station Pacific (CAMSPAC). CAMSPAC provides maritime distress communication services and safety and weather broadcasts to commercial and recreati onal mariners, and also provides secure voice communications and record message delivery services for all United States Coast Guard cutters, aircraft, and shore units. A dditionally, CAMSPAC is one of the United States Coast Guard’s Pacific Area’s (PACAREA) Continuity of Operati ons sites. CAMSPAC delivers contingency and interagency communicat ion services for Incident Commanders by deploying a state-of-the-art transportable communications ce nter. CAMSPAC is the Operational Commander of the United States Coast Gu ard’s Pacific Area Communications System,

deploying a state-of-the-art transportable communications ce nter. CAMSPAC is the Operational Commander of the United States Coast Gu ard’s Pacific Area Communications System, consisting of communication stations in Honolulu Hawaii, Kodiak Alaska, and remote facilities in Guam. There are approximately 150 people assigned to CAMSPAC.

7.2 CORAL SHIPREP will use INMARSAT-C co mmunications equipment. A computer server handles and sorts incoming reports and sends the return message. Incoming reports are text messages that arrive via either internet e-mail or telex. When the ship reporting system server receives a report, the server sends the ship a specific return message. Area co-ordinators

will monitor and update the information to the server for inclusion in the outgoing message.
