the safety of life at sea or threatens the marine environment

9.1 SAR plan

The national maritime SAR plan establishes the MRCC in Gdynia, which is responsible in the event of an emergency that poses risk to the safety of life at sea and for deploying SAR units operating in the reporting area.

9.2 National contingency plan

The Director of Maritime Office in Gdynia is the authority responsible for prevention and control of pollution produced by oil and other harmful substances in the reporting area waters. Given the extent of the damage that can be caused by oil spills, there is a National Contingency Plan to deal with them, upon wh ich various authorities co-operate under operational co-ordination of MRCC.

10 Measures to be taken if a ship fails to comply with the requirements of the system

10.1 The primary objective of the system is to enhance the safe navigation and the protection of the marine environment through the exchange of information between the ship and the shore. All means will be used to encourage and promote the full participation of ships required to submit reports under SOLAS regulation V/11.

of the marine environment through the exchange of information between the ship and the shore. All means will be used to encourage and promote the full participation of ships required to submit reports under SOLAS regulation V/11.

10.2 If reports are not submitted and the offending ship can be positively identified, then

information will be passed to the relevant Flag State Authorities for investigation and possible prosecution in accordance with nationa l legislation. Information will be passed also to Port State Control, while at the same time an investigation will be launched with a view to possible legal action being taken in accordance with national legislation.

ANNEX

MANDATORY SHIP REPORTING SYSTEM “OFF THE SOUTH AND SOUTHWEST COAST OF ICELAND (TRANSREP)”

1 Categories of ships required to participate in the system

1.1 Ships of the following categories are re quired to participate in the system:

.1 ships calling at ports located within the eastern ATBA off the south and southwest coast of Iceland; and

.2 ships of less than 5,000 gross tonnage perm itted to transit the eastern ATBA south of latitude 63° 45  N when engaged on voyages betw een Icelandic ports and not carrying dangerous or noxious cargoes in bulk or in cargo tanks.

Pursuant to SOLAS 1974, the ma ndatory ship reporting system does not apply to any warship, naval auxiliary, coast guard ve ssel, or other vessel owned or operated by a contracting government and used, for the time being, only on government non-commercial service. However, such ships are encouraged to participat e in the reporting system.  The mandatory ship reporting system does not apply to fishing vessels with fishing rights within Iceland’s exclusive economic zone (EEZ) and research vessels.
