this type of device and relevant in terms of meeting the emission limits and the objectives of regulation 4.4 of MARPOL Annex VI, should be identified
Resolution of those additional Functional Objectives
5. Maintenance and servicing

5.1 The extent, frequency and details of device maintenance necessary by user is to be specified including like for like replacements should be specified
Basis and details of the required onboard maintenance in terms of activities and timings in order to maintain the effectiveness of the device

Functional objective Content of TWTD Technical Report
5.2 Extent, frequency and details of device servicing requirements should be specified
Basis and details of the required servicing in terms of activities and timings in order to maintain the effectiveness of the device to operate with the emission limits
5.3 Extent, frequency and details of maintenance and servicing requirements of emission monitoring devices should be specified

timings in order to maintain the effectiveness of the device to operate

with the emission limits
5.3 Extent, frequency and details of maintenance and servicing requirements of emission monitoring devices should be specified
Basis and details of the required maintenance and servicing in terms of activities and timings in order to maintain the effectiveness of the devices to operate as required
5.4 Maintenance and servicing records should be retained on board for a duration at least 18 months from the date of performance
Means by which the record keeping requirements related to maintenance and servicing are recorded and retained on board in a tamper -proof manner and will be available as required
5.5 Additional Functional Objectives related to device maintenance and servicing related as applicable to this type of device and relevant in terms of meeting the emission limits and the objectives of regulation 4.4 of MARPOL Annex VI, should be identified
Resolution of those additional Functional Objectives
6. Instructions and training

6.1 A TWTD Operating Manual should be supplied with the device covering as necessary those Functional Objective

of MARPOL Annex VI, should be identified
Resolution of those additional Functional Objectives
6. Instructions and training

6.1 A TWTD Operating Manual should be supplied with the device covering as necessary those Functional Objective
sections 2 to 5
The TWTD Operating Manual, which may be divided into a number of separate documents as appropriate, should provide all necessary direction and guidance for the installation, in -service operation and onboard maintenance of the device together with appropriate fault finding and resolution guidance. Also included

should be the serv icing extent and
timing requirements
6.2 A person who is to operate or maintain the
device is to be trained to implement the
guidance provided by the TWTD
Operating Manual training records are to
be retained on board at least 18 months
from date of training or while that person is
performing those tasks whichever is the
longer
Description and content of the
provided training programme, which
may include test material, to be
provided which would allow the user
to train persons to apply the guidance
as given in the TWTD Operating
Manual and means to record, in a

Description and content of the
provided training programme, which
may include test material, to be
provided which would allow the user
to train persons to apply the guidance
as given in the TWTD Operating
Manual and means to record, in a
tamper-proof manner, which persons
had been successfully trained as
appropriate to their assigned tasks
7. TWTD File

7.1 To enable the device to be surveyed, or
inspected, a TWTD File should be
provided

The TWTD File should include, but is not
limited to, the following:
An example of a TWTD File covering
the required topics should be included

 Functional objective Content of TWTD Technical Report

1. Identification of the device to which the
File refers, including model, rating and
serial number
2. Description of the device and its manner
of operation including any exhaust gas

treatment arrangements
3. The means by which the device should be surveyed both initially and in-service to verify that it is conforms to its as certified
