ANNEX 15
RESOLUTION MEPC.377(80)
(adopted on 7 July 2023)
2023 IMO STRATEGY ON REDUCTION OF GHG EMISSIONS FROM SHIPS
THE MARINE ENVIRONMENT PROTECTION COMMITTEE,
RECALLING Article 38(e) of the Convention on the International Maritime Organization concerning the functions of the Marine Environment Protection Committee (the Committee) to consider and take appropriate action with respect to any other matters falling within the scope of the Organization which would contribute to the prevention and control of marine pollution from ships,
ACKNOWLEDGING that work to address greenhouse gas (GHG) emissions from ships has been undertaken by the Organization continuously since the adoption of Conference resolution 8 on CO2 emissions from ships in September 1997, in particular, through the adoption of global mandatory technical and operational energy efficiency measures for ships under MARPOL Annex VI,
ACKNOWLEDGING ALSO the decisions of the Assembly at its thirtieth and thirty -second
