all control provisions as set out in the BWM Convention. Such a system should also meet any general requirements set out in the Procedures for port State control, 2021 (resolution A.1155(32))), as amended, as well as support the detection of violations and enforcement of the Convention as outlined in article 10 of the BWM Convention.
6.1.2 The use of and reliance upon electronic record books in no way relieves shipowners of their existing duty to accurately maintain and produce records during an inspection, as required by the BWM Convention . It is recommended that, if a ship cannot produce the electronic record book or a declaration provided by the Administration during the PSC inspection, the PSC officer should request to view an alternative verified copy of the records or a hard copy record book for verification.
6.2 Equipment requirements during an inspection
As the electronic record book will be presented using the ships' onboard equipment, it should not be necessary for officers to carry additional equipment (e.g. electronic devices to view th e
records) during inspections. Officers may choose to carry additional equipment on board to aid

6.3 Prosecution
To accommodate current procedures when investigating illegal discharges under the BWM Convention, the electronic record book should allow for the specific entry, relevant page, page s
or the entirety of the electronic record book to be printed at the time o f an investigation an d
each printed page physically signed by the master to certify it as a "true copy". All printed pages should provide the following details in addition to those required under the BWM Convention for record books:
.1 the title and full name of the person that entered the record (in addition to the person's unique username and/or ID in the electronic record book);
.2 any changes that were made to the entries;
