Biofouling Record Book Part I contains many references to observations regarding fouling rating. These observations may be included in separate reports including observations of subsections and corresponding photos/video. The entries in Biofouling Record Book Part I may be a summary only including a conclusion on whether the activity is in line with the BFMP.
Biofouling Record Book Part I should be kept on board the ship in a place where it is readily available for inspection at all reasonable times and for the life of the ship. Any inspection of
Biofouling Record Book Part I should be performed as expeditiously as possible without causing the ship to be unduly delayed.

LIST OF ITEMS TO BE RECORDED
(A) Proactive cleaning
1 Date and location of ship when proactive cleaning occurred.
2 General observations with regard to biofouling prior to cleaning, if any (i.e. extent of microfouling and macrofouling in line with the defined ratings).
3 Records of permits required to undertake in-water proactive cleaning, if applicable.
4 Details of hull and niche areas cleaned.
5 General observations with regard to biofouling after the cleaning, if any (i.e. extent of microfouling and macrofouling in line with the defined ratings).
6 Reference to any supporting evidence/reports of the cleaning (e.g. report from supplier, photographs/videos and/or receipts), if any.
7 Method, manufacturer and model of proactive cleaning method used, if not given in BFMP.

supplier, photographs/videos and/or receipts), if any.
7 Method, manufacturer and model of proactive cleaning method used, if not given in BFMP.
8 Reference to test standard for which the method has been tested, if not given in BFMP.
9 Name, position and signature of the person in charge of the activity.
(B) Inspection
1 Date and location of inspection.
2 Methods used for inspection (including inspection tools/devices).
3 Areas inspected of the ship.
4 Observations with regard to biofouling (extent of microfouling and macrofouling in line with the defined fouling rates).
5 Observations with regard to anti-fouling system (AFS) condition.
6 Reference to any supporting evidence/reports of the inspection.
7 Name, position and signature of the person in charge of the activity.
(C) Reactive cleaning
1 Date and location of ship when cleaning occurred.
2 Records of permits required to undertake in-water cleaning, if applicable.
