Chapter 5 – Regulations on the IMO Net-Zero Framework
Regulation 30
Application
1 This chapter shall apply to all ships of 5,000 gross tonnage and above.
2 Notwithstanding paragraph 1 of this regulation, the provisions of this chapter shall not
apply to:
.1 ships solely engaged in voyages within waters subject to the sovereignty or
jurisdiction of the State the flag of which the ship is entitled to fly. However,
each Party should ensure, by the adoption of appropriate measures, that

apply to:
.1 ships solely engaged in voyages within waters subject to the sovereignty or
jurisdiction of the State the flag of which the ship is entitled to fly. However,
each Party should ensure, by the adoption of appropriate measures, that
such ships act in a manner consistent with the requirements of chapter 5 of
this Annex, so far as is reasonable and practicable;
.2 ships not propelled by mechanical means, and platforms including FPSOs
and FSUs and drilling rigs, regardless of their propulsion; and
.3 semi-submersible vessels until further review of the application of this
chapter.
Regulation 31
Goal
The goal of this chapter is to reduce greenhouse gas (GHG) emissions from international
shipping as soon as possible, delivering on the reduction targets set out in the 2023 IMO
Strategy on Reduction of GHG Emissions from Ships ,74 effectively promoting the energy
transition of shipping and providing the world fleet with a needed incentive while contributing
to a level playing field and a just and equitable transition.
Regulation 32
Functional requirements

transition of shipping and providing the world fleet with a needed incentive while contributing
to a level playing field and a just and equitable transition.
Regulation 32
Functional requirements
In order to achieve the goal set out in regulation 31 of this Annex, a ship to which this chapt
er
applies shall comply with the following functional requirements:
.1 requirements on the continuous improvement of the ship's GHG fuel intensity
in accordance with regulation 35 of this Annex; and
.2 requirements on GHG emissions pricing contributions for excess emissions
and on rewards for the uptake of zero or near -zero GHG emission
technologies, fuels and/or energy sources (ZNZs) in accordance with
regulations 36 and 39.
Regulation 33
Attained annual GHG fuel intensity (attained annual GFI)
1 After the end of calendar year 2028 and after the end of each calendar year thereafter,
each ship to which this chapter applies shall calculate the attained a
