Disclosure guidelines and guidance

Submission date – the questionnaire shall be submitted by the 31st March of every calendar year.

Chartered vessels – when recording the number of chartered vessels in your organization's fleet please refer to long charter contracts that are planned to last at least 6 months.

Send your ship recycling policy to SRTI secretariat – to ensure disclosed information is always available. We request signatories that have a public recycling policy to provide the documentation in pdf format to SRTI's Secretariat who will act as custodian. Smart Freight Centre does not assume any responsibility towards any parties regarding the content of the provided documentation. SFC will not use the policies for any aim except keep a copy available.

Reporting period – this disclosure questionnaire relates to the calendar year prior to the reporting date, I.e. a period of 12 months ending on December 31st of the previous year.

For age of ships and other time-sensitive questions, please refer to the situation as of the 31st of December of the reported year, unless otherwise indicated in the specific question.

Acronyms and definitions

GT (Gross Tonnage) – the moulded volume of all enclosed spaces of the ship.

LDT (Lightweight Displacement Tonnage) - weight of the ship with all its permanent equipment, excluding the weight of cargo, fuel, water, ballast, stores, passengers, crew. Usually adopted in standard contracts for ship recycling (see BIMCO Recyclecon).

HKC (Honk Kong Convention for the Safe and Environmentally Sound Recycling of Ships) - or Hong Kong Convention, is a multilateral convention adopted in 2009, which will enter into force in June 2025.

Basel Convention (The Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal) - is an international treaty designed to control the movements of hazardous waste between nations, and specifically to prevent transfer of hazardous waste from developed to developing countries
