all control provisions as set out in the BWM Convention. Such a system should also meet any

general requirements set out in the Procedures for port State control, 2021

(resolution A.1155(32))), as amended, as well as support the detection of violations and

enforcement of the Convention as outlined in article 10 of the BWM Convention.

6.1.2 The use of and reliance upon electronic record books in no way relieves shipowners

of their existing duty to accurately maintain and produce records during an inspection, as

required by the BWM Convention . It is recommended that, if a ship cannot produce the

electronic record book or a declaration provided by the Administration during the PSC

inspection, the PSC officer should request to view an alternative verified copy of the records

or a hard copy record book for verification.

6.2 Equipment requirements during an inspection

As the electronic record book will be presented using the ships' onboard equipment, it should

not be necessary for officers to carry additional equipment (e.g. electronic devices to view the

records) during inspections. Officers may choose to carry additional equipment on board to aid

6.3 Prosecution

To accommodate current procedures when investigating illegal discharges under the BWM

Convention, the electronic record book should allow for the specific entry, relevant page, pages

or the entirety of the electronic record book to be printed at the time o f an investigation and

each printed page physically signed by the master to certify it as a "true copy". All printed

pages should provide the following details in addition to those required under the BWM

Convention for record books:

.1 the title and full name of the person that entered the record (in addition to the

person's unique username and/or ID in the electronic record book);

.2 any changes that were made to the entries;
