meanings defined in the following paragraphs.
3.1 Administration means the Government of the State whose flag a ship or floating
structure which carries a diving system is entitled to fly or in which the ship or floating
structure
is registered.
3.2 Breathing gas/breathing mixture means all gases/mixtures of gases which are used
for breathing during diving operations.
3.3 Category A machinery spaces are those spaces and trunks to such spaces as defined
in the International Convention for the Safety of Life at Sea, 1974, as amended.
RESOLUTION MSC.548(107) (adopted on 5 June 2023)
INTERNATIONAL CODE OF SAFETY OR DIVING OPERATIONS, 2023 (2023 DIVING CODE)
MSC 107/20/Add.1
Annex 35, page 6
I:\MSC\107\MSC 107/20/Add.1.docx
3.4 Certificate means Diving Unit Safety Certificate (DUSC).
3.5 Coastal State means the Government of the State exercising administrative control
over the diving operations of the diving unit.

3.5 Coastal State means the Government of the State exercising administrative control over the diving operations of the diving unit.

3.6 Cylinder means a pressure container for the storage and transport of gases under pressure.

3.7 Daughter-craft means a workboat deployed from and/or operating in conjunction with a diving platform; the workboat is used to deploy divers into and recover them from the water.

3.8 Dive basket (synonymous with diving basket, diving stage or diving cage) means a diver deployment and recovery device normally designed with an open cage structure.

3.9 Diving depth means the depth of water or equivalent pressure to which the diver is exposed at any time during a dive or inside a pressure vessel for human occupancy (PVHO).

3.10 Diving bell (synonymous with closed bell and submersible decompression chamber) means a submersible pressure vessel for human occupancy (PVHO), including its fitted

means a submersible pressure vessel for human occupancy (PVHO), including its fitted equipment, for transfer of diving personnel between the work location and the surface compression chamber.

3.11 Diving operation means a planned activity where one or more persons are exposed to a pressure greater than 100 mbar above atmospheric pressure and which is supported by a pressure vessel for human occupancy (PVHO) and/or a launch and recovery system (LARS).

3.12 Diving organization means the legal entity responsible for conducting a diving operation.

3.13 Diving platform means the ship, floating structure or mobile offshore drilling unit (MODU) from which a diving operation is being conducted.

3.14 Diving system means the whole plant and equipment necessary for the conduct of diving operations and for the evacuation of divers.

3.15 Diving system internal muster point means the location within the surface

diving operations and for the evacuation of divers.

3.15 Diving system internal muster point means the location within the surface compression chamber complex where the divers gather before entering the hyperbaric survival craft (HBSC) access trunking.

3.16 Diving unit means the combined diving system and diving platform, installed and integrated to conduct diving operations.

3.17 Essential services means the services for maintaining the diving system functionality with regard to the safety, health and environment of the divers in a hyperbaric environment and at the worksite.

3.18 FSS Code means the International Code for Fire Safety Systems, as def
