ns prior to entering the ship reporting area.

When leaving port, the ship can give the full report to the ship reporting system by voice or by

non-verbal means.

3.1 Format

3.1.1 The information given below is derived from the format-type given in paragraph 2 of the

appendix to resolution A.851(20).

3.2 Content

3.2.1 A short report by voice or by AIS from a sh ip to the shore-based authorities should

contain the following information:

A Name of the ship, call sign or IMO identification number (or MMSI for

transponder reports)

B Date and Time (UTC)

C or D Position (expressed in latitude and longitude or bearing to and distance

from a landmark)

E and F Course and speed of the ship

-

transponder reports)

B Date and Time (UTC)

C or D Position (expressed in latitude and longitude or bearing to and distance

from a landmark)

E and F Course and speed of the ship

3.2.2 A full report from a ship to the shore-ba sed authorities by voice or by non-verbal means

should contain the following information:

I Destination and ETA

L Route information

O Vessel’s draught

P Hazardous cargo, class and quantity, if applicable

Q or R Breakdown, damage and/or deficien cies affecting the structure, cargo or

equipment of the ship or any other circumstances affecting normal

navigation in accordance with the provisions of the SOLAS and MARPOL

Conventions

T Contact information of ship’s agent or owner

U Ship’s deadweight tonnage

W Total number of persons on board

X Miscellaneous remarks, e.g. ice class, amount and nature of bunkers if

over 5000 tons, navigational status

Note:

On receipt of a position message, the system operators will establish the relationship

between the ship’s position and the information supplied by the position-fixing equipment

available to them. Information on course and speed will help operators to identify one

-

between the ship’s position and the information supplied by the position-fixing equipment available to them. Information on course and speed will help operators to identify one ship among a group of ships. This will be achieved automatically if AIS transponder is used.

All VHF-, telephone-, radar-, AIS- and other relevant information will be recorded and the records stored for 30 days.

3.3 Geographical position for submitting reports

3.3.1 Eastbound traffic should make a report to TALLINN TRAFFIC when crossing the line drawn from Bengtskär Lighthouse to 59 °33.30’N 022°30’E to 59°10’N 021 °30’E to K■pu Peninsula or when entering the ship reporting area from south.

3.3.2 Westbound traffic should make a short report to HELSINKI TRAFFIC when crossing longitude 026°30’E or when entering the ship reporting area from north.

3.3.3 A full report to the nearest shore station should be made on departure from port.

3.3.4 Further reports should be made to the relevant shore station whenever there is a change of

-

3.3.3 A full report to the nearest shore station should be made on departure from port.

3.3.4 Further reports should be made to the relevant shore station whenever there is a change of

navigational status or circumstance, particul arly in relation to items Q and R of the reporting format.

3.4 Crossing traffic

3.4.1 Reports to the nearest shore station should be made on departure from a port within the coverage area. Recognizing that ferries cr ossing between Helsinki and Tallinn generally operate according to published schedules, speci al reporting arrangements can be made on a ship-by-ship basis, subject to the approval of both HELSINKI TRAFFIC and TALLINN TRAFFIC.

3.4.2 Further reports should be made to the relevant shore station whenever there is a change of navigational status or circumstance, particul arly in relation to items Q and R of the reporting format.

3.4.3 On the area between Helsinki and Tallinn Light houses there is a heavy crossing traffic in summer consisting mostly of high speed craft and recreational craft. In the area between Porkkala Lighthouse and Naissaar there are recreational sailing activities in summer.

3.5 Authority

-

summer consisting mostly of high speed craft and recreational craft. In the area between Porkkala Lighthouse and Naissaar there are recreational sailing activities in summer.

3.5 Authority

3.5.1 The shore-based Authorities are:

Estonia: Estonian Maritime Administration

Finland: Finnish Maritime Administration

Russian Federation: Russian M
