Chapter 5 – Regulations on the IMO Net-Zero Framework

Regulation 30

Application

1 This chapter shall apply to all ships of 5,000 gross tonnage and above.

2 Notwithstanding paragraph 1 of this regulation, the provisions of this chapter shall not apply to:

.1 ships solely engaged in voyages within waters subject to the sovereignty or jurisdiction of the State the flag of which the ship is entitled to fly. However, each Party should ensure, by the adoption of appropriate measures, that

-

apply to:

.1 ships solely engaged in voyages within waters subject to the sovereignty or jurisdiction of the State the flag of which the ship is entitled to fly. However, each Party should ensure, by the adoption of appropriate measures, that

such ships act in a manner consistent with the requirements of chapter 5 of this Annex, so far as is reasonable and practicable;

.2 ships not propelled by mechanical means, and platforms including FPSOs and FSUs and drilling rigs, regardless of their propulsion; and

.3 semi-submersible vessels until further review of the application of this

chapter.

Regulation 31

Goal

The goal of this chapter is to reduce greenhouse gas (GHG) emissions from international

shipping as soon as possible, delivering on the reduction targets set out in the 2023 IMO

Strategy on Reduction of GHG Emissions from Ships ,74 effectively promoting the energy

transition of shipping and providing the world fleet with a needed incentive while contributing

to a level playing field and a just and equitable transition.

Regulation 32

Functional requirements

-

transition of shipping and providing the world fleet with a needed incentive while contributing

to a level playing field and a just and equitable transition.

Regulation 32

Functional requirements

In order to achieve the goal set out in regulation 31 of this Annex, a ship to which this chapter

applies shall comply with the following functional requirements:

.1 requirements on the continuous improvement of the ship's GHG fuel intensity

in accordance with regulation 35 of this Annex; and

.2 requirements on GHG emissions pricing contributions for excess emissions

and on rewards for the uptake of zero or near -zero GHG emission

technologies, fuels and/or energy sources (ZNZs) in accordance with

regulations 36 and 39.

Regulation 33

Attained annual GHG fuel intensity (attained annual GFI)

1 After the end of calendar year 2028 and after the end of each calendar year thereafter,

each ship to which this chapter applies shall calculate the attained annual GFI over a 12-month

period from 1 January to 31 December for the preceding calendar year (reporting period), using

-

each ship to which this chapter applies shall calculate the attained annual GFI over a 12-month

period from 1 January to 31 December for the preceding calendar year (reporting period), using

74 Refer to the 2023 IMO Strategy on Reduction of GHG Emissions from Ships (resolution MEPC.377(80)).
