ANNEX 14

RESOLUTION MEPC.376(80)

(adopted on 7 July 2023)

GUIDELINES ON LIFE CYCLE GHG INTENSITY OF MARINE FUELS

(LCA GUIDELINES)

THE MARINE ENVIRONMENT PROTECTION COMMITTEE,

RECALLING Article 38(a) of the Convention on the International Maritime Organization

(the Committee) concerning the functions of the Marine Environment Protection Committee

conferred upon it by international conventions for the prevention and control of marine pollution

from ships,

RECALLING ALSO that at its seventy -second session, the Committee adopted resolution

MEPC.304(72) on Initial IMO Strategy on Reduction of GHG Emissions from Ships (Initial

Strategy),

NOTING that the Initial Strategy calls for the development of robust life cycle GHG/carbon

intensity guidelines for all types of fuels, in order to prepare for an implementation programme

for effective uptake of alternative low-carbon and zero-carbon fuels,

NOTING ALSO that at its eightieth session, the Committee adopted resolution MEPC.377(80)

-

for effective uptake of alternative low-carbon and zero-carbon fuels,

NOTING ALSO that at its eightieth session, the Committee adopted resolution MEPC.377(80)

on the 2023 IMO Strategy on Reduction of GHG Emissions from Ships (2023 IMO Strategy)

setting out the levels of ambition for the international shipping sector in reducing GHG

emissions,

NOTING FURTHER that the 2023 IMO Strategy provides that the levels of ambition and

indicative checkpoints should take into account the well -to-wake GHG emissions of marine

fuels as addressed in the guidelines on life cycle GHG intensity of marine fuels dev eloped by

the Organization,

NOTING that the 2023 IMO Strategy provides that the basket of candidate mid -term GHG

reduction measures should take into account the well-to-wake GHG emissions of marine fuels

as addressed in the guidelines on life cycle GHG intensity of marine fuels developed by the

Organization,

HAVING CONSIDERED, at its eightieth session, the draft guidelines on life cycle GHG

intensity of marine fuels (LCA Guidelines),

1 ADOPTS the Guidelines on life cycle GHG intensity of marine fuels (LCA Guidelines),

as set out in the annex to the present resolution;

-

intensity of marine fuels (LCA Guidelines),

1 ADOPTS the Guidelines on life cycle GHG intensity of marine fuels (LCA Guidelines),

as set out in the annex to the present resolution;

2 AGREES that any regulatory application and implications of the LCA Guidelines

should be determined by the Committee in the process of developing regulatory provisions,

3 REQUESTS Member Governments to bring the annexed Guidelines to the attention

of shipowners, ship operators, shipbuilders, ship designers, energy companies, fuel producers,

bunkering companies, engine manufacturers and any other interested parties;

4 AGREES to keep these Guidelines under review in light of experience gained with

their implementation.
