"Under way and not under way

7.6 Under way is defined as the period between full ahead on passage (FAOP) and end of sea passage (EOSP) as per the Guidelines for setting up a maritime single window (FAL.5/Circ.42/Rev.3).

Full ahead on passage is more commonly referred to in performance monitoring systems as begin of sea passage, which is also defined in the IMO Compendium on facilitation and electronic business (IMO Compendium) under IMO 0597 (Code EV10).

"Not under way" is therefore the period between end of sea passage and full ahead on passage.

Note that canal passage, that is the period between begin canal passage (EV08) and end canal passage (EV09) which are also defined in the IMO Compendium under IMO 0597 should be considered not under way due to frequent manoeuvring, acceleration and deceleration."
