and for electronic navigational aids , adopted by the Organization by resolution A.694(1
1).

** Administrations should take account of the Recommendations on radio maintenance guide
lines for the Global Maritime Distress and Safety System (GMDSS) related to sea areas A3
and A4 , a.dopted by the Organization by resolution A.102(11) W/1681n/pp/EWP RESOLUTION
MSC.36(63) (adopted on 20 May 1994) ADOPTION OF THE INTERNATIONAL CODE OF SAFETY FOR HIG
H SPEED CRAFT 14.14.9 14.15 14.16 MSC 62/23/Add.2 ANNEX 18 Page 145 While all reasonable
steps should be taken to maintain the equipment in efficient working order to ensure com
pliance with all the functional requirements specified in 14.4, malfunction of the equip
ment for providing the general radiocommunications, required by 14.4.8, should not be co
nsidered as making a craft unseaworthy or as a reason for delaying the craft in ports wh
ere repair facilities are not readily available, provided the craft is capable of perfor
ming all distress and safety functions.

Radio pers~ Every craft should carry personnel qualified for distress and safety radioco
mmunication purposes to the satisfaction of the - not readily available, provided the cr
aft is capable of performing all distress and safety functions.

Radio pers~ Every craft should carry personnel qualified for distress and safety radioco
mmunication purposes to the satisfaction of the Administration.

The personnel should be holders of certificates specified in the Radio Regulations as ap
propriate, anyone of whom should be designated to have primary responsibility for radioc
ommunications during distress incidents.

Radio records A record should be kept, to the satisfaction of the Administration and as
required by the Radio Regulations, of all incidents connected with the radiocommunicatio
n service which appear to be of importance to safety of life at sea.

W/l687n/pp/EWP RESOLUTION MSC.36(63) (adopted on 20 May 1994) ADOPTION OF THE INTERNATIO
NAL CODE OF SAFETY FOR HIGH SPEED CRAFT MSC 62/23/Add.2 ANNEX 18 Page 146 15.1 15.1.1 15

tions "Operating area" is the operating compartment and those parts of the craft on both
sides of, and close to, the operating compartment - 15.1.

4 15.2 15.3 15.3.1 15.3.2 15.3.3 15.3.4 CHAPTER 15 - OPERATING COMPARTMENT LAYOUT Defini
tions "Operating area" is the operating compartment and those parts of the craft on both
sides of, and close to, the operating compartment which extend to the craft's side.

"Workstation" is a position at which one or several tasks constituting a particular acti
vity are carried out.

"Docking workstation" is a place equipped with necessary means for docking the craft.

"Primary controls" are all control equipment necessary for the safe operation of the cra
ft when it is underway, including those required in an emergency situation.

General The design and layout of the compartment from which the crew operate the craft s
hould be such as to permit operating crew members to perform their duties in a correct m
anner without unreasonable difficult
