should be provided to ensure the continuous supply of such information in the event of f ailure of the craft's main or emergency source of electrical power.

14.13 _Performance standards 14.13.1 All equipment to which this chapter applies should be of a type approved by the Administration.

Such equipment should conform to appropriate performance standards not inferior to those adopted by the Organization*.

Refer to the following resolutions adopted by the Assembly of the Organization: .1 Resol ution A.525(13): Performance standards for narrow-band direct-printing telegraph equipme nt for the reception of navigational and meteorological warnings and urgent information to ships .

.

2 Resolution A.694(17): General requirements for shipborne radio equipment forming part of the global maritime distress and safety system (GMDSS) and for electronic navigationa l aids .

.

3 Resolution A.698(17): Performance standards for ship earth stations capable of two-way communications and resolution A.570(14): Type approval of ship earth stations .

.

4 Resoluti~n A.609(15): Performance standards for shipborne VHF radio - .

3 Resolution A.698(17): Performance standards for ship earth stations capable of two-way communications and resolution A.570(14): Type approval of ship earth stations .

.

4 Resoluti~n A.609(15): Performance standards for shipborne VHF radio installations capa ble of voice communication and digital selective calling .

.

5 Resolution A.610(15): Performance standards for shipborne MF radio installations capab le of voice communication and digital selective calling .

.

6 Resolution A.613(15): Performance standards for shipborne MF/HF radio installations ca pable of voice communication, narrow-band direct-printing and digital selective calling .

.

7 Resolution A.695(17): Performance standards for float-free satellite emergency positio n-indicating radio beacons (EPIRBs) operating on 406 MHz (see also Assembly resolution A .696(17): Type approval of satellite emergency position-indicating radio beacons (EPIRBs) operating in the COSPAS-SARSAT system).

W/1687n/pp/EWP (RESOLUTION MSC.36(63) (adopted on 20 May 1994) ADOPTION OF THE INTERNAT IONAL CODE OF SAFETY FOR HIGH SPEED CRAFT (Footnote continued) MSC 62/23/Add.2 ANNEX 18 Page 143 - operating in the COSPAS-SARSAT system).

W/1687n/pp/EWP (RESOLUTION MSC.36(63) (adopted on 20 May 1994) ADOPTION OF THE INTERNAT IONAL CODE OF SAFETY FOR HIGH SPEED CRAFT (Footnote continued) MSC 62/23/Add.2 ANNEX 18 Page 143 .8 Resolution A.697(17): Performance standards for survival craft radar transpo nders for use in search and rescue operations • .

9 Resolution A.612(15): Performance standards for float-free VHF emergency position-indi cating radio beacons .

.

10 Resolution A.663(16): Performance standards for INMARSAT Standard-C ship earth statio ns capable of transmitting and rece~v~ng direct-printing communications and resolution A .570(14): Type approval of ship earth stations .

.

11 Resolution A.664(16): Performance standards for enhanced group call equipment .

.

12 Resolution A.661(16): Performance standards for float-free
