.

15 "Sea area A4" means an area outside sea areas AI; A2 and A3.

All other terms and abbreviations which are used in this chapter and which are defined i
n the Radio Regulations should have the meanings as defined in those Regulations.

Exemptions It is considered highly desirable not to deviate from the requirements of thi
s chapter; nevertheless the Administration, in conjunction with the base port State, may
grant partial or conditional exemptions to individual craft from the requirements of 14.
6 to 14.10 provided: .1 such craft comply with the functional requirements of 14.4; and
.2 the Administration has taken into account the effect such exemptions may have upon th
e general efficiency of the service for the safety of all ships and craft.

* Refer to the NAVTEX manual approved by the Organization.

** Refer to resolution A.704(17) concerning provision of radio services for the Global M
aritime Distress and Safety System (GMDSS), adopted by the Organization.

ETY FOR HIGH SPEED CRAFT MSC 62/23/Add.2 ANNEX 18 Page 132 14.3.2 14.3.3 14.4 14.4.1 - O
rganization.

RESOLUTION MSC.36(63) (adopted on 20 May 1994) ADOPTION OF THE INTERNATIONAL CODE OF SAF
ETY FOR HIGH SPEED CRAFT MSC 62/23/Add.2 ANNEX 18 Page 132 14.3.2 14.3.3 14.4 14.4.1 An
exemption may be granted under 14.3.1 only: .1 if the conditions affecting safety are su
ch as to render the full application of 14.6 to 14 .

10 unreasonable or unnecessary; .2 in exceptional circumstances, for a single voyage out
side the sea area or sea areas for which the craft is equipped; or .3 prior to 1 Februar
y 1999, when the craft will be taken permanently out of service within two years of a da
te prescribed by 14.1 for the application of requirements of this chapter.

Each Administration should submit to the Organization, as soon as possible after the fir
st of January in each year, a report showing all exemptions granted under 14.3.1 and 14.
3.2 during the previous calendar year and giving the reasons for granting such exemption
s.

Functional requirements Every craft, while at sea, should be capable: .1 except as provi
ded in 14.7.1.1 and 14.9.1.4.3, of transmitting ship-to-shore distress alerts by at leas
t two separate and - Functional requirements Every craft, while at sea, should be capabl
e: .1 except as provided in 14.7.1.1 and 14.9.1.4.3, of transmitting ship-to-shore distr
ess alerts by at least two separate and independent means, each using a different radioc
ommunication service; .2 of receiving shore-to-ship distress alerts; .3 of transmitting
and receiving ship-to-ship distress alerts; .4 of transmitting and receiving search and
rescue co-ordinating communications; .5 of transmitting and receiving on-scene communica
tions; .6 of transmitting and, as required by 13.5, receiving signals for locating~; .7
of transmitting and receiving** marine safety information; .8 of transmitting and receiv
ing general radiocommunications to and from shore-based radio systems or networks subjec
t to 14.14.8; and .9 of transmitting and receiving bridge-to-bridge commun
