iate survey.

A permit may be withdrawn based on this review if the - progress review by the permittin g Administration or Administrations at each intermediate survey.

A permit may be withdrawn based on this review if the testing has not adhered to the con ditions of the permit or if it is determined that the technology or programme is not lik ely to produce effective results in the reduction and control of ship emissions.

If the reviewing Administration or Administrations determine that additional time is req uired to conduct a test of a particular technology or programme, a permit may be renewed for an additional time period not to exceed five years.

RESOLUTION MEPC.328(76) AMENDMENTS TO THE ANNEX OF THE PROTOCOL OF 1997 TO AMEND THE INT ERNATIONAL CONVENTION FOR THE PREVENTION OF POLLUTION FROM SHIPS, 1973, AS MODIFIED BY T HE PROTOCOL OF 1978 RELATING THERETO- 10 - Emissions from seabed mineral activities 3.1 Emissions directly arising from the exploration, exploitation and associated offshore - Emissions from seabed mineral activities 3.1 Emissions directly arising from the explora tion, exploitation and associated offshore processing of seabed mineral resources are, c onsistent with article 2(3)(b)(ii) of the present Convention, exempt from the provisions of this Annex.

Such emissions include the following: .1 emissions resulting from the incineration of su bstances that are solely and directly the result of exploration, exploitation and associ ated offshore processing of seabed mineral resources, including but not limited to the f laring of hydrocarbons and the burning of cuttings, muds, and/or stimulation fluids duri ng well completion and testing operations, and flaring arising from upset conditions; .2 the release of gases and volatile compounds entrained in drilling fluids and cuttings; . 3 emissions associated solely and directly with the treatment, handling or storage of se abed minerals; and - cuttings; .3 emissions associated solely and directly with the trea tment, handling or storage of seabed minerals; and .4 emissions from marine diesel engin es that are solely dedicated to the exploration, exploitation and associated offshore pr ocessing of seabed mineral resources.

3.2 The requirements of regulation 18 of this Annex shall not apply to the use of hydroc arbons that are produced and subsequently used on site as fuel, when approved by the Adm inistration.

Unmanned non-self-propelled barges 4 The Administration may exempt an unmanned non-self- propelled (UNSP) barge from the requirements of regulations 5.1 and 6.1 of this Annex by means of an International Air Pollution Prevention Exemption Certificate for Unmanned No n-self-propelled (UNSP) Barges, for a period not exceeding five years provided that the barge has unde rgone a survey to confirm that conditions referred to in regulations 2.1. 32.1 to 2.1.32.3 of this Annex are met.

Regulation 4 - confirm that conditions referred to in regulations 2.1.32.1 to 2.1.32.3 o f this Annex are met.

Regulation 4 Equivalents 1 The Administration of a Party may allow any fitting, material , appliance or apparatus to be fitted in a ship or other procedures, alternative fuel oi ls, or compliance methods used as an alternative to those required by this Annex if such fitting, material, appliance or apparatus or other procedures, alternative fuel oils, or compliance methods are at least as effective in terms of emissions reductions as those r equired by this Annex, including any of the standards set forth in regulations 13 and 14 .

2 The Administration of a Party that allows a fitting, material, appliance or apparatus or other procedures, alternative fuel oils, or compliance methods used as an alternative to those required by this Annex shall communicate to t
