ORGANIZATION TO ADDRESS GHG EMISSIONS FROM SHIPS APPENDIX 2 OVERVIEW OF RELEVANT INITIAT IVES BY THE ORGANIZATION SUPPORTING THE REDUCTION OF GHG EMISSIONS FROM SHIPS RESOLUTION MEPC.377(80) (adopted on 7 July 2023) 2023 IMO STRATEGY ON REDUCTION OF GHG EMISSIONS FR OM SHIPSMEPC 80/17/Add.1 Annex 15, page 4 I:\MEPC\80\MEPC 80-17-Add.1.docx 1 INTRODUCTIO N 1.1 The International Maritime Organization (IMO or the Organization) is the United Na tions specialized agency responsible for safe, secure and efficient shipping and the pre vention of pollution from ships.

1.2 The 2023 IMO Strategy on Reduction of GHG Emissions from Ships (the 2023 IMO GHG Str ategy) represents the continuation of work by IMO as the appropriate international body to address greenhouse gas (GHG) emissions from international shipping.

This work includes Assembly resolution A.963(23) on IMO policies and practices related t o the reduction of greenhouse gas emissions from ships , adopted on 5 December 2003, urg ing the Marine Environment Protection Committee (MEPC or the Committee) to identify and develop the - of greenhouse gas emissions from ships , adopted on 5 December 2003, urgin g the Marine Environment Protection Committee (MEPC or the Committee) to identify and de velop the mechanisms needed to achieve the limitation or reduction of GHG emissions from international shipping.

1.3 In response to the Assembly's request, work to address GHG emissions from ships has been undertaken by the Organization, as summarized in appendix 1.

1.4 The Initial IMO Strategy on Reduction of GHG Emissions from Ships (resolution MEPC.3 04(72)) was the first milestone set out in the Road map for developing a comprehensive I MO strategy on reduction of GHG emissions from ships (the Road Map) approved at MEPC 70.

The Road Map identified that a revised strategy was to be adopted in 2023.

1.5 The adoption of the 2023 IMO GHG Strategy is the latest milestone set out in the Roa d Map.

The 2023 IMO GHG Strategy also sustains the momentum and represents the continuation of work by IMO as the appropriate international body to address GHG emissions from internat ional shipping.

Context 1.6 The 2023 IMO GHG Strategy falls within a broader context that includes: - co ntinuation of work by IMO as the appropriate international body to address GHG emissions from international shipping.

Context 1.6 The 2023 IMO GHG Strategy falls within a broader context that includes: .1 o ther existing instruments related to the law of the sea, including UNCLOS, and to climat e change, including the UNFCCC and its related legal instruments, including the Paris Ag reement; 2 the leading role of the Organization in the development, adoption and assista nce in implementation of environmental regulations applicable to international shipping; .3 the decision of the thirty-second session of the Assembly (A 32) in December 2021 tha t adopted for the Organization a strategic direction entitled "Respond to climate change "; and .4 the United Nations 2030 Agenda for Sustainable Development.

Emissions and emissio
