NOTING that regulation A-2 of the Ballast Water Management Convention requires that disc harge of ballast water shall only be conducted through ballast water management in accor dance with the provisions of the Annex to the Convention, NOTING ALSO that regulation B-5.2 of the Ballast Water Management Convention provides that ships constructed in or aft er 2009 should, without compromising safety or operational efficiency, be designed and c onstructed with a view to minimize the uptake and undesirable entrapment of sediments, f acilitate removal of sediments, and provide safe access to allow for sediment removal an d sampling taking into account the guidelines developed by the Organization, NOTING FURT HER resolution MEPC.150(55) by which the Committee adopted the Guidelines on design and construction to facilitate sediment control on ships (G12) and resolved to keep these gu idelines under review, HAVING CONSIDERED, at its sixty-third session, a revised text of the Guidelines on design and construction to facilitate sediment control on ships (G12), developed by the Ballast - resolved to keep these guidelines under review, HAVING CONSID ERED, at its sixty-third session, a revised text of the Guidelines on design and constru ction to facilitate sediment control on ships (G12), developed by the Ballast Water Revi ew Group of the Committee at its sixty-second session, 1.

ADOPTS the 2012 Guidelines on design and construction to facilitate sediment control on ships (G12), as set out in the Annex to this resolution; 2.

INVITES Member Governments to apply the 2012 Guidelines (G12) as soon as possible or whe n the Convention becomes applicable to them; and 3.

REVOKES the Guidelines (G12) adopted by resolution MEPC.150(55).

RESOLUTION MEPC.209(63) Adopted on 2 March 2012 2012 GUIDELINES ON DESIGN AND CONSTRUCTI ON TO FACILITATE SEDIMENT CONTROL ON SHIPS (G12)MEPC 63/23 Annex 3, page 2 I:\MEPC\63\23 .doc ANNEX 2012 GUIDELINES ON DESIGN AND CONSTRUCTION TO FACILITATE SEDIMENT CONTROL ON SHIPS (G12) 1 PURPOSE 1.1 Regulation B-5.2 of the Convention requires that ships describ ed in regulations B-3.3 to B-3.5 should, without compromising safety or operational effi ciency, be designed - SEDIMENT CONTROL ON SHIPS (G12) 1 PURPOSE 1.1 Regulation B-5.2 of the Convention requires that ships described in regulations B-3.3 to B-3.5 should, witho ut compromising safety or operational efficiency, be designed and constructed with a vie w to minimize the uptake and undesirable entrapment of sediments, facilitate removal of sediments and provide safe access to allow for sediment removal and sampling, taking int o account these Guidelines.

Ships described in regulation B-3.1 of the Convention should, to the extent practicable, also comply with regulation B-5.2, taking into account these Guidelines.

1.2 The purpose of these Guidelines is to provide guidance to ship designers, shipbuilde rs, owners and operators in the devel opment of ship structures and equipment to achieve the objectives of paragraph 1.1 and, t hereby, reduce th
