THE MARINE ENVIRONMENT PROTECTION COMMITTEE, RECALLING Article 38 of the Convention on t
he International Maritime Organization concerning the functions of the Marine Environmen
t Protection Committee relating to any matter within the scope of the Organization conce
rned with the prevention and control of marine pollution from ships, RECALLING ALSO that
Member States of the International Maritime Organization made a clear commitment to mini
mizing the transfer of invasive aquatic species by shipping in adopting - RECALLING ALSO
that Member States of the International Maritime Organization made a clear commitment to
minimizing the transfer of invasive aquatic species by shipping in adopting the Internat
ional Convention for the Control and Management of Ships' Ballas t Water and Sediments,
2004, RECALLING FURTHER that studies have shown biofouling on ships to be an important m
eans of transferring invasive aquatic species which, if established in new ecosystems, m
ay pose threats to the environment, human health, property and resources, NOTING the obj
ectives of the Convention on Biological Diversity, 1992, and that the Kunming-Montreal G
lobal Biodiversity Framework includes a target to eliminate, minimize, reduce and/or mit
igate the impacts of invasive alien species on biodiversity and ec osystem services by i
dentifying and managing pathways of the introduction of alien species, NOTING ALSO that
the transfer and introduction of invasive aquatic species through ships' - services by i
dentifying and managing pathways of the introduction of alien species, NOTING ALSO that
the transfer and introduction of invasive aquatic species through ships' biofouling thre
atens the conservation and sustainable use of biological diversity, and implementing pra
ctices to control and manage ships' biofouling can greatly assist in reducing the risk o
f the transfer of invasive aquatic species, NOTING FURTHER that this issue, being of wor
ldwide concern, demands a globally consistent approach to the management of biofouling,
RECALLING that, at its sixty -second session, it had adopted, by resolution MEPC.207(62)
, the 2011 Guidelines for the control and management of ships' biofouling to minimize th
e transfer of invasive aquatic species (Biofouling Guidelines), developed by the Sub-Com
mittee on Bulk Liquids and Gases, RECALL
