"Under way and not under way 7.6 Under way is defined as the period between full ahead o

Full ahead on passage is more commonly referred to in performance monitoring systems as
begin of sea passage, which is also defined in the IMO Compendium on facilitation and el

"Not under way" is therefore the period between end of sea passage and full ahead on pas

Note that canal passage, that is the period between begin canal passage (EV08) and end c
anal passage (EV09) which are also defined in the IMO Compendium under IMO 0597 should b
e considered not under way due to frequent manoeuvring, acceleration and deceleration."
