36 of this Annex.

.17 Sustainable fuel certification scheme (SFCS) is a scheme, administered by a legal en tity, which certifies that a fuel is compliant with the requirements set out in chapter 5 of this Annex and its associated guidelines.

5 Refer to the 2024 Guidelines on life cycle GHG intensity of marine fuels (resolution M EPC.391(81)), as may be amended.

RESOLUTION MEPC.403(83) (adopted on 11 April 2025) AMENDMENTS TO THE 2022 GUIDELINES ON SURVEY AND CERTIFICATION OF THE ENERGY EFFICIENCY DESIGN INDEX (EEDI)MEPC 83/17/Add.1 An nex 11, page 9 I:\MEPC\MEPC 83-17-Add.1.docx .18 Target annual GHG fuel intensity (targe t annual GFI), expressed in grams of CO2eq per unit of energy (gCO 2eq/MJ), is the value of the two tiers target annual GFI (base target and direct compliance target) in accorda nce with regulation 35 of this Annex.

.19 Zero or near-zero GHG emission technologies, fuels and/or energy sources (ZNZs) mean s the type of ZNZs that qualifies for the annual fuel reward in accordance with regulati on 39.

Regulation 3 Exceptions and exemptions General 1 Regulations of this Annex shall not app ly to: - (ZNZs) means the type of ZNZs that qualifies for the annual fuel reward in acco rdance with regulation 39.

Regulation 3 Exceptions and exemptions General 1 Regulations of this Annex shall not app ly to: .1 any emission necessary for the purpose of securing the safety of a ship or sav ing life at sea; or .2 any emission resulting from damage to a ship or its equipment: .1 provided that all reasonable precautions have been taken after the occurrence of the dam age or discovery of the emission for the purpose of preventing or minimizing the emissio n; and .2 except if the owner or the master acted either with intent to cause damage, or recklessly and with knowledge that damage would probably result.

Trials for ship emission reduction and control technology research 2 The Administration of a Party may, in cooperation with other Administrations as appropriate, issue an exemp tion from specific provisions of this Annex for a ship to conduct trials for the develop ment of ship emission reduction and control technologies and engine design programmes.

Such an exemption shall only be provided if the applications of specific provisions - fo r the development of ship emission reduction and control technologies and engine design programmes.

Such an exemption shall only be provided if the applications of specific provisions of t he Annex or the revised NO x Technical Code 2008 could impede research into the developm ent of such technologies or programmes.

A permit issued under this regulation shall not exempt a ship from the reporting require ment under regulation 27 and regulation 37 shall not alter the type and scope of data re quired to be reported under regulation 27 and regulation 37.

A permit for such an exemption shall only be provided to the minimum number of ships nec essary and be subject to the following provisions: .1 for marine diesel engines with a p er cylinder displacement up to 30 L, the duration of the sea trial shall not exceed 18 m onths.

If additional time is
