the marine environment.

It is recommended that ships use port reception facilities as the primary means of disch
arge for all garbage.

1.3 Recognizing that the Annex V regulations continue to restrict the discharge of garba
ge into the sea, require garbage management for ships, and that garbage management techn
ology continues to evolve, it is recommended that governments and the Organization conti
nue to gather information and review these guidelines periodically.

- technology continues to evolve, it is recommended that governments and the Organizatio
n continue to gather information and review these guidelines periodically.

1.4 Regulation 8 of MARPOL Annex V provides that Governments must ensure the provision o
f adequate port reception facilities for garbage from ships and should facilitate and pr
omote their use.

Section 5 provides guidelines for these facilities.

1.5 The Convention provides definitions for terms used throughout these guidelines.

Section 1.6 includes relevant aspects of these definitions, followed by other definition
s which are useful for these guidelines.

1.6 Definitions 1.6.1 Dishwater means the residue from the manual or automatic washing o
f dishes and cooking utensils which have been pre-cleaned to the extent that any food pa
rticles adhering to them would not normally
