RECALLING Article 28(b) of the Convention on the International Maritime Organization con
cerning the functions of the Committee, RECALLING ALSO resolution A.886(21), by which th
e Assembly resolved that the functions of adopting performance standards and technical s
pecifications for radio and navigational equipment, as well as amendments thereto, shall
be performed by the Maritime Safety Committee on behalf of the Organization, RECALLING F
URTHER resolution MSC.74(69), Annex 3 - Recommendation on Performance Standards for an U
niversal Shipborne Automatic Identification System (AIS), REALIZING the application of A
IS devices to safety of navigation as well as security, NOTING that the International Te
l ecommunications Union Sector for Radiocommunications (ITU-R) recognizes a Cla ss A cat
egory of AIS meeting the requirements - REALIZING the application of AIS devices to safe
ty of navigation as well as security, NOTING that the International Tel ecommunications
Union Sector for Radiocommunications (ITU-R) recognizes a Cla ss A category of AIS meeti
ng the requirements of resolution MSC.74(69), as well as Class B and other categories of
AIS not meeting the requirements of resolution MSC.74(69), Annex 3, NOTING ALSO that Cla
ss A devices are in tended to meet compulsory AIS fitting requirements of the 1974 SOLAS
Convention, and Class B devices are intended to meet the needs of vessels, which fit AIS
on a voluntary basis, NOTING FURTHER the benefit of Class B devices, RECOGNIZING that th
e radio channels used by AIS, particular ly AIS 1 (161.975 MHz) and AIS 2 (162.025 MHz),
are regarded as an AIS network, and any disruption to those channels by any one AIS devi
ce could
