• Module D for the Documentation requirements.

3.4 Application of modules These performance standards are applicable to all INS as foll ows: 3.4.1 Modules A, C, D and paragraphs 6, 8 to 13 of module B are applicable for any INS.

3.4.2 Additionally, for each task integrated in to the INS, the INS should fulfil both: • the requirements of the respective tasks as specified in paragraph 7 of module B and • the relevant modules of performance standards for stand-alone equipment as specified in Table 1.

Table 1 INS Tasks and functions (Para of this standard) Additionally applicable modules of specific equipment standards for task integrated into the INS.

The modules are specified in the appendices of these performance standards, if not speci fied in the equipment standards.

Collision avoidance (7.4) Radar PS (Res.

MSC.192(79)) (Modules specified in Appendix 3) Module A: ■Sensor and Detection■ Module B : ■Operational requirements■ Module C:■ Design and Technical requirements■ Route plannin g (7.2) Route monitoring (7.3) ECDIS PS (Res.
