

NAVIGATING THE FUTURE: SAFETY FIRST!

How does IMO's Safety Of Life At Sea (SOLAS) treaty make a difference?

SHIPS IN POLAR WATERS

SOLAS chapter XIV covers additional safety measures for ships operating in polar waters. It makes mandatory the safety measures contained in the Polar Code. The Code covers the full range of design, construction, equipment, operational, training, search and rescue and environmental protection matters relevant to ships operating in waters surrounding the two poles.
